**Signature5 Consulting, LLC**, is a team of highly experienced PeopleSoft implementation and upgrade experts. We specialize in multi-application enterprise projects and provide a wide range of services from technical development to project planning. S5 is a small, rapidly growing company with a vast network of resources. We provide services to small and mid-size organizations, and augment existing large scale projects with our own specialists. The Signature5 management team consists of former PeopleSoft, Oracle, and IBM consultants who value client service above all else. Our success rests on our reputation for excellence, and is sustained by a group of intelligent, articulate, and skilled professionals who are as unique as our own signatures.

### Consulting Services

**Project Management** The dynamic nature of IT has serious impacts on organizations worldwide. We bring tested and proven solutions to help organizations implement, upgrade, and maintain both the application systems and the physical environment as well. The Signature5 team will work closely with the technical management team to:

- Establish project goals and timelines;
- Develop a resource plan;
- Identify and mitigate potential project risk factors; and
- Provide technical and project manager leadership to complete projects on time and under budget.

**Resource Management** Signature5 can review existing technical staff and provide resources to augment or create the overall project team. Our consultants are excellent at evaluating technical ability and potential growth of individual client resources.
